TRAVEL MANAGEMENT

HOTEL BOOKING

- ✓ APPROVAL WORKFLOW
- ✓ TRAVEL POLICY
- ✓ STATISTICS
- ✓ CUSTOMIZED REPORTS

Powered by two Travelport cores

Are you a user of Travelport Galileo or Travelport Worldspan?

Galileo | Worldspan

Then nothing can stop you from allowing your corporate customers to book air tickets from this vast content.

Cost centres

This key feature allows you to manage cost centres by defining payment methods, assigning managers and setting travel policies.

Save time

Automation and standardized processes allow your corporate customers to search and book a trip on their own, and just within a few minutes.

Role & user management

Efficient administration of users and roles is another one of TripGate's key advantages. With user upload via Excel files, profile creation has never been easier. With user upload via Excel sheets or automatic synchronisation with your HR system, profile creation has never been easier.

Lowest fare configuration

Along with Cost centres and Travel policies, Lowest-fare configuration allows you to have even more control over the trip costs. Air ticket with the lowest fare is being automatically placed on the top of search results. If such connection is not suitable, Acceptable fare could be setup based on acceptable fare range.

Travel policies

Travel policies together with cost centres and automated verification process help your corporate customers effectively control overall expenses. Thanks to TripGate, they can be sure that employees travel in compliance with their corporate travel policy.

24/7 access

Because TripGate is web-based, any user can access it 24/7 anytime and anywhere.
