

GOL IBE

Your internet booking engine.
Sell air tickets and hotels online.

Powered by Travelport Galileo

Are you a Travelport Galileo user? Then nothing can stop you from selling air tickets from this vast content.

Reliability

Robust server solution with capacity planning.

Security

Supervised and supported by IT professionals 24/7.

Support

Support of professionals at Travelport Czech Republic.

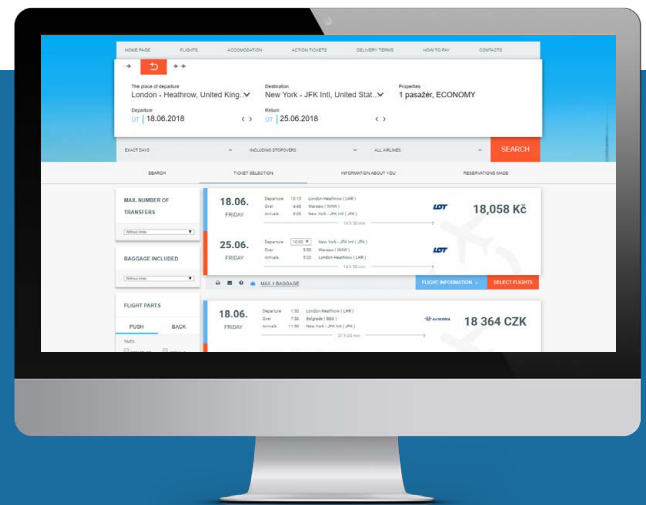

Low-cost carriers? Why of course.

GOL IBE & GOL Mobile are powered by Travefusion. So besides legacy airlines from Travelport Galileo, you can offer your customers LCC flights from all over the world.

Beautiful design, easy implementation

Two options.

1. You don't have a website. Never mind. Use the default beautiful graphic design.
2. You do have a website. Perfect. Easily implement the search form through iframe, or connect it with your unique design using our HTML and scripts.

Have full control over your GOL IBE.

Control the graphic design of the booking process.

Detailed overview of bookings, registered customers and much more.

Statistics of the website traffic and application performance.

Payment gateways

Let your customers pay comfortably by credit card.

GOL IBE supports many payment gateways. If none of them suits you, we'll do our utmost to integrate your preferred payment gateway.

Your customers can also pay offline via bank transfer, invoice or cash.

Not just air, also hotels

Your customers can search and book hotels from the rich database provided by GTA. GOL IBE can also offer hotels in the final destination, once they successfully book a ticket. So you can sell more during a single booking process.
